PROJECTS

Online-CV
Stack Used : JAVASCRIPT

Responsive digital Resume where you can post your CV or Resume online and make it clickable with download button.

Weather App
Stack Used : NODEJS

This app will show the weather information that it will get from the API(Open Weather). An icon that shows the weather status, the temperature value in Celsius unit. And the weather description(like: clear sky), and you can look up the user's city and country.

Food Recipe
Stack Used : REACTJS

This site provides flexibility to user to search top rated and variety of recipes from available recipes in cloud. This is very handy application, which every user can search cloud for recipes. This app is time saver providing recipes in few clicks. By combining ingredients and title search, Food-Recipes makes finding recipes easy. With recipes being added daily there will always be something new for user to crave.
